

Worksheet 1

Starkers

View From a Tree

Imagine you could climb a great big tree near your school, or home or in a location you love. What could you see from way up high?

Write about it as descriptively as possible so a listener could close his/her eyes and see the picture you see as you read your description out aloud.

OR

Illustrate the view. You can use something as simple as pencil sketches, or collect materials to create a 2-dimensional collage. You may like to illustrate using paint or texta, or use cut-outs from magazines to create your image.
