

Bubble Gum

Bubble Gum and Bird's Eye Views!

The child telling the story has an amazing experience when her enormous bubble blown from heaps of bubble gum takes her on a highflying adventure! Imagine if that happened to you. Even better, imagine if you could choose exactly where and when it happened!

Think about what you would like to see on a journey like this. Where would you go?

Write about or **illustrate** a 'bubble gum flight path'. Consider how different things might look from high up and describe your bird's eye view of what lies below. Be as descriptive and detailed as you can — and feel free to use your wildest imagination!
