Disguise an Alien

Dougie disguises his new alien friend in a raincoat and hat. To come up with a disguise for an alien, you'll need to think about four things:

- what your alien looks like
 - what clothing will be suitable
 - where you'll be going
 - what the weather is like
- (alien must 'fit in' with those around it!)

Plan then illustrate (in the box below) your finished product and see what your friends think!

My alien looks like: _____

Clothing that will be suitable is: _____

We will be going to: _____

The weather is: _____
