

Little Red Riding Hood

Safety Warning

“Little Red Riding Hood” is what is known as a “cautionary tale” – a story which points out dangers and warns against them. Other famous examples are “the Three Little Pigs” and “The Billy Goats Gruff”. In all these stories, the danger is avoided – just – and things end with “they all lived happily ever after”. The whole point of the story is to warn readers.

Imagine you had to take the story of “Little Red Riding Hood” and make a poster, warning against what might happen if you don't do as you've promised. Make sure you have a picture of the danger (the wolf) and write a little summary (up to 50 words) of what might happen if you ignore the warning.
