

Worksheet 2

Wendy And The Pirate

The story of the map

With Wendy's help, the pirate was able to find the treasure. Below are different bits of the story, but in the wrong order. Can you sort them out by putting numbers (1-10) in to show what order they come in the story?

- Wendy watched in delight as the pirate shared the treasure with her.
- Wendy was walking along the beach when she heard a strange noise.
- "X. Isn't that where pirates mark the treasure?" "Everyone knows that," sniffed the pirate.
- "What are these words?" asked Wendy. "Worte? Taferwall? Kulls crok?" That's right!" said the pirate. "What do they mean?"
- She climbed on the pirate's shoulders. She reached up to the window.
- "Dig!" said Wendy. The pirate took the spade and dug.
- They came to a high tower. It had no door. It had only one window.
- They looked high. They looked low. There was no spade. "Is it behind the waterfall?" asked Wendy. "Don't be silly," said the pirate. "There's nothing behind..." "What's that?"
- They came to a huge rock in the shape of a skull.
- The pirate put the key in the lock. He opened the chest.
