

Worksheet 3

No Second Chances

The Great Divide

The Blue Mountains are part of the longest mountain range in Australia: **The Great Dividing Range** (it covers three states!). Research one of the following regions of the Great Divide:

- The Atherton Tablelands
- The Grampians
- The Blue Mountains
- The Snowy Mountains

Create a **poster** to advertise this region showing why this area would be a great place to visit. Try to find some pictures, maps or diagrams to make your presentation more colourful. Be sure to include the following:

Location

Identify where the region is on a map of Australia

Climate

What is the weather like throughout the year?

Natural features

What are some nearby major lakes, mountains and rivers?

Nearby towns

What are some of the nearby towns?

Flora and Fauna

What kind of animals and plants are found there?

Leisure and Sports

What kinds of activities do people do there?

Use a large colourful heading. You may use a computer to present your information but it must be in your own words.
