Jamie and Firefly vs Asgoth

In the kingdom of Arcadia, everyone lives in fear of Asgoth the terrible. All except for Jamie. For Jamie has a secret weapon, Firefly the dragon. If Jamie is brave enough to defeat the great wizard, the land of Arcadia could be free once more.

On the eve of the massive battle, Jamie was preparing himself to defeat Asgoth. Jamie was a brave, young boy who lived with his dad in the kingdom of Arcadia. Asgoth was an evil wizard who treated the people badly, stole lots of stuff and killed many innocent villagers. Jamie was confident he could defeat Asgoth as he had a secret weapon called Firefly, Jamie's pet dragon whom he had saved from a fallen nest. Jamie's eyes had lit up when his dad had said he could keep the egg that contained Firefly.

One cold winter evening, Jamie and his dad were woken by the sound of the door splintering into millions of pieces. By the time Jamie and his dad, Andrew, were standing, Asgoth had appeared in the shattered doorway. Asgoth growled in a deep, gruff voice, raised his hands and then released a massive spell. It raised the house and made the house turn into dust. Jamie was yelling for Firefly to make sure his friend and pet were safe from the evil Asgoth. As Asgoth approached, he was loudly threatening to destroy Andrew and Jamie.

As Jamie was calling out for his pet in the total darkness, he heard the familiar beat of his dragon's wings, and Jamie smiled. He was truly amazed to see the huge glowing fireballs appearing from the darkness. They came from every angle, painfully striking Asgoth in the face and body.

Asgoth was so startled by the pain he felt and groaned loudly as the dragon's fire took away his evil powers.

In desperation, Asgoth quickly drank a potion that helped him resist the little dragon's fireballs. Once he finished drinking the gas-like liquid his strength began to return. He was able to focus once again on destroying Jamie and Andrew.

To everyone's surprise, Asgoth suddenly disappeared as Firefly's fireballs grew stronger and more intense. Asgoth had used his spell of invisibility and teleported to a position behind the cheery and excited crowd of watching villagers.

Asgoth then made himself visible causing all the onlooking villagers to run to the safety of their homes. The little dragon was so exhausted he was lying on the ground to catch his breath.

Asgoth took this opportunity to remove his wand and approached Jamie.

However, Jamie also had magical spells that he had been training to use, but he had not developed the control of his old wizard grandfather who had taught him.

It had become a battle of wands, spells and good versus evil. Asgoth released an almighty spell that made the earth around Jamie shatter and attempt to swallow them whole.

Jamie retaliated with a spell of levitation and fired back a spell that shocked and stumbled Asgoth. Jamie was slow to remember the spells that he had just learnt and his power control was all over the place.

They battled for a few hours, trading many fierce spells at each other and each had taken many severe blows. Jamie's power was starting to weaken and Asgoth began to take control.

Jamie began to doubt he could defeat the evil within Asgoth, until he heard the beat of the little dragon's wings once more. Jamie crouched to the ground and summoned all of his remaining strength for his final assault. He fired his last spell with all the power he could but wasn't sure it would reach Asgoth. The little dragon sensed his struggle and fired the most powerful flame he could towards Asgoth. The fire struck Asgoth just as Jamie's spell also hit. Their combined efforts had multiplied the force to infinity causing Asgoth to turn into ash and vapour.

Jamie and his secret weapon had succeeded. Together they had freed Arcadia from evil.
